SIGINON GLOBAL LOGISTICS

As Siginon Group, we appreciate that global trade and value chains are enabled by robust logistics infrastructure. We see ourselves as agents of connecting continents, unlocking trade opportunities, and supporting development by ensuring efficient movement of cargo, offering cost effective cargo options and embracing innovation to work better and respond to disruption in the market. Our freight options include; air, sea, road, rail and are conveniently located adjacent to the Port City of Mombasa, Internal Container Depot (ICD) and Nairobi's Jomo Kenyatta International Airport (JKIA).

Siginon Group Warehouse customers enjoy access to over 300,000 square meters of space in Nairobi and Mombasa aligned to your satisfy cargo needs for: general, transit and bonded warehousing. The warehouses are secured and manned 24/7 to ensure the safety and limit pilferage of your cargo. We have implemented Warehouse Management Systems (WMS) that give you unfettered access to information on your inventory, and support stock taking and re-ordering.

Our Worldwide Network through World Cargo Alliance (WCA) gives us connections to almost 200 countries and over 10,000 freight forwarders to ensure we meet your global import and export requirements in Kenya and the Greater East Africa Region.

OUR CUSTOMERS

Over the years, we have fulfilled the cargo needs of customers in various industry sectors such as; health care, humanitarian, manufacturing, agriculture, oil and gas, consumer goods, education, governments, automobile, hospitality to name a few.

Through Kenya Ports of entry, we handle cargo for Kenya and transit into regional markets such as; Uganda, Tanzania, Burundi, Rwanda, DR Congo, Zambia, Somalia, Ethiopia and beyond. Our assurance is that each solution we offer is tailor made to satisfy the needs of each client, sector, product and regulatory framework of each country.

SIGINON CFS

The Port of Mombasa is one of Africa's top Ports due to its unique location and gateway to East Africa. The Port continues to expand to accommodate increased cargo and support international trade. Container Freight Stations (CFS) are privately owned port terminals licensed by the Kenya Ports Authority, to decongest the Port of Mombasa and handle cargo pending customs clearance.

Siginon CFS located in Miritini, Mombasa is specialized in handling cargo from the Port of Mombasa that is bulk, less than container load (LCL), full container load (FCL) and motor vehicle. Our unique location, adjacent to the Port limits the incidences of accidents, or pilferage and makes it easy to transport the cargo safely from the CFS into the city of Mombasa or onwards to the hinterland.

With a state-of-the-art equipment, we have enhanced efficiency in yard operations guided by our competent team in both port and operations. To ensure optimal operational efficiency in cargo clearance and evacuation of shipments from the yard, the CFS also has offices for government officials such as; customs, bureau of standards and other key port regulators stationed within the CFS.

Our CFS Services at a glance:

Services in Summary
